

Grow Light Manual

Product: Grow Light

Description: A dedicated grow light designed to stimulate fruiting in growkits where natural light is insufficient.

Follow these instructions when you are about to start the fruiting process.

Instructions

- Set up the lamp on its footstand.
- Place your grow kit directly underneath the lamp.
- Adjust the height of the lamp to sit **15–30 cm above the growkit**.
- Set the timer to 3, 9 or 12 hours depending on ambient light conditions:
 - Use **3 hours** if natural light is present.
 - Use **9 hours** if natural light is lacking.
 - Use **12 hours** if the space is dark or lacks windows.
- For best results, keep the same light cycle every day and set the lamp brightness at full intensity to increase crop growth.
